

Bishwas Shrestha

Full Stack Web Developer

workmail.bishwas@gmail.com | +977 9869133344 | bishwas-shrestha.com.np | github.com/BishwasGit | Kathmandu, Nepal

PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience building scalable web applications using PHP/Laravel, React.js, and Node.js. Proven track record of delivering end-to-end solutions across DevOps, server management, and UI/UX. Hands-on with Docker, Linux VM deployments, and API integrations. Brings a builder's mindset — with 30+ personal and professional projects on GitHub.

TECHNICAL SKILLS

Languages	PHP, JavaScript, Dart
Front-End	React.js, React Native, Next.js, HTML, CSS, Bootstrap
Back-End	Laravel, Node.js, Express.js, AJAX
Databases	MySQL, SQL Workbench
DevOps & Server	Docker, Linux VMs, SSH, cPanel, Networking, API Integration
Design & Tools	Adobe Photoshop, Git, Slack, Google Workspace, MS Office

WORK EXPERIENCE

Full Stack Developer (Full-Time)

February 2024 – Present

AnoopInnovations — Kathmandu, Nepal

- Architected and shipped dynamic web applications using Laravel, React.js, Docker, and MySQL — reducing deployment time by standardising container-based workflows.
- Managed Linux VM environments, SSH access, networking configs, and cPanel deployments for 5+ production sites.
- Improved site performance and security through query optimisation and server hardening practices.

Web Developer (Fellowship Program)

November 2023 – January 2024

AnoopInnovations — Kathmandu, Nepal

- Selected for a structured fellowship program, developing web applications using HTML, CSS, JavaScript, Laravel, React.js, and Git.
- Demonstrated consistent performance during the fellowship, leading to a full-time offer.

Full Stack Developer (Full-Time)

April 2023 – September 2023

Bibhuti Solutions — Kathmandu, Nepal

- Promoted to full-time Full Stack Developer after successful internship completion.
- Built and maintained PHP/Laravel web applications with AJAX-powered dynamic interfaces.
- Managed WordPress sites and handled graphic design assets using Adobe Photoshop.

Intern Web Developer

November 2022 – March 2023

Bibhuti Solutions — Kathmandu, Nepal

- Completed internship demonstrating strong technical aptitude, dedication, and keen interest in web development.
- Contributed to live projects using PHP, Laravel, JavaScript, and MySQL under mentorship.

KEY PROJECTS

■ SmartTrek

Web & mobile travel app (in development) — full-stack with React Native + Laravel backend.

■ jobportal-chatbot

AI-driven chatbot integrated into a job portal for smart candidate filtering.

■ Dynamic Tenant Website Builder

Multi-tenant Laravel app enabling users to build customisable websites.

■ Lawsuit Management System

Role-based web app for public users and officials. Live at public.dftqc.site / lawsuit.dftqc.site.

■ QRIdentity

QR-code based identity management system with web interface.

■ Bloodbank Management System

Full-stack blood bank app with mobile backend support.

■ n8n YT Video Upload Automation

Automation scripts to streamline YouTube video uploads using n8n workflows.

■ Online Voting System

Secure, web-based voting platform built with Laravel and MySQL.

EDUCATION

Bachelor of Computer Application (BCA) — Kathmandu Bernhardt College, Kathmandu, Nepal	2019 – 2023
+2 in Management & Web Designing — Capitol Hill College, Kathmandu, Nepal	2017 – 2019
Certificate in Web Designing — New Horizon Computer Learning Centers, Lalitpur, Nepal	2019
